

LEK LAK LIK LUK

For 3 players.

Using voice and/or percussive sounds (made by instruments and/or other objects).

Each participant chooses a word **Lek**, **Lak**, or **Lik**. When this word appears s/he says/plays it. **Luk** is a common word, when it appears everyone says/plays it together.

The goal is to say/play the text from beginning till end without getting confused and/or stopping in a good speed. Once you get that under control, you can create more sequences using the suggested variations and/or come up with your own. The more variations you sing/play in sequence – the better!

The variations

1. Speak/play everything all together.
2. Each speaks/plays her/his word + **Luk** all together.
3. Each speaks her/his word + make a sound of liking after your word.
4. Make a cannon.

More suggestions for variations with percussive sounds

+Luk: can add **Luk** too (thus one variations can become two).

+/Luk: can add **Luk** OR play only **Luk**.
